

Shower Enclosure Glass & Hardware Recommended Care Instructions

Important Warnings

Abrasive Cleaner Warning

DO NOT use harsh chemicals such as ammonia or hydrochloric and phosphoric acid, abrasive or acid based cleaners such as **Bleach**, Ajax, Comet, Rouge, and Cerium Oxide, or abrasive brushes, razor blades or other sharp objects when cleaning your shower enclosure glass and hardware. Use of these chemicals **WILL VOID YOUR WARRANTY.**

Shower Doors are Not Watertight

DO NOT use excessive water pressure or direct the shower spray at the door. These do not represent normal shower conditions and can result in leaks.

Towel Bar and Handling Warning

DO NOT use towel bars and handles as grab bars, they are not designed to hold the weight of a person.

Warning about Opening and Closing Your Shower Door

DO NOT use excessive force when opening and closing your shower door.

Shower Door Structural Warning

DO NOT hang from or stand on your shower enclosure.

Care Instructions

Care Instructions for ALL Hardware and Glass

DO wipe hardware with a soft dry towel and squeegee the glass after every use.

Approved Cleaners for ALL Hardware and Glass

DO use Comet® Bathroom Cleaner with Disinfectant (shown on right) on hardware and glass, followed by a clean water rinse.
